

SnapLex Product Design Document

1. Product Overview

SnapLex is a desktop floating utility for instant screen text capture and translation.

It supports OCR-based screen selection translation and clipboard-based text translation.

2. Core Features

- Floating always-on-top widget
- Screen region capture
- OCR text extraction
- Clipboard translation pipeline
- Pluggable translation providers

3. User Flows

Flow A: Screen Translation -> click capture -> select region -> OCR -> translate -> popup result

Flow B: Text Translation -> select text -> hotkey -> copy -> translate -> popup result

4. UX Principles

Non-intrusive, fast, minimal clicks, fallback-friendly, keyboard-first interaction.

5. Expansion Plan

History, multilingual support, AI summarization, browser extension integration.
